### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The specification clearly discloses the beneficial effect of not more than 5% by weight of calcium carbonate on hydrolizability. The specification also discloses that the effect of 6% by weight of calcium carbonate, which is inferior to 4% by weight of calcium carbonate. This is completely unexpected. While the specification shows that the addition of 0.5% by weight of magnesium hydroxide yields a compound of good hydrolytic stability (which is also unexpected), there is no data disclosed of the effect of more than 5% by weight of magnesium hydroxide on hydrolytic stability. However none of the cited references disclose magnesium hydroxide and the amount of magnesium used for flame-retardance is much higher than 5% by weight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
